SAM RIMELL
PRIMARY EXAMINER

Preliminary Note: This office action is not made final. Since this action only contains grounds of rejection under 35 USC 112, the Examiner has included specific suggestions for corrections. These suggestions may be adopted by submission of formal amendment, or by examiner's amendment with applicant's authorization.

Claims 4, 6 and 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4: In claim 4, it is generally unclear whether the system involves one or more computers. It is also unclear exactly what data is being returned by the various input means. The suggested corrections are as follows: In line 3, insert the word "first" before "computer". In line 6, change "a first of said at least one computer" to "said first computer". In line 8, change "the at least one computer" to "a second computer". In line 15, delete the phrase "to the output means of the at least one computer". In lines 16-17, change "for a particular procedure" to "wherein said eligibility data pertains only to said particular procedure". In line 18, change "at least said first" to "said second". In line 20, change "for said procedure" to "only said particular procedure".

Claim 13: In line 14, "the procedure" lacks antecedent basis. The suggested correction is as follows: In line 14, change "to determine whether the procedure is" to "and determining whether a procedure associated with the procedure code is".

Claims 4, 6 and 13-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
